

# Complement<sup>®</sup> Super

syngenta<sup>®</sup>

*A non-ionic wetter / spreader / penetrant surfactant.*

## **Description:**

Complement Super<sup>®</sup> is a new generation surfactant based on organo-modified siloxane technology for use in water based pesticide formulations.

The Complement Super<sup>®</sup> effectiveness may allow the use of the lowest labelled pesticide rate at the lowest recommended level.

Complement Super<sup>®</sup> increases the deposition of actives and improves significantly the penetration of actives into plant tissue. Therefore it is specifically suited to enhance the biological performance of systemic and semi-systemic products including herbicides, fungicides, insecticides and plant growth regulators.

## **Dosage:**

Pesticides	Rate per hectare	Rate per arpent
<b>Herbicides</b>	200 ml	84 ml
<b>Fungicides &amp; Insecticides</b>	100 – 200 ml	42 to 84 ml
<b>Plant Growth Regulators</b>	150 ml	63 ml
<b>Micro-nutrients</b>	150 ml	63 ml
