

SCORE 250 EC[®]

Description:

SCORE[®] is a reliable, broad spectrum, systemic fungicide for long-lasting preventative and strong curative control including leaf spot diseases, powdery mildews, rusts and scab of annual and perennial crops. Thanks to its excellent crop tolerance the crop stays healthy, vigorous and green which results in higher yields of better quality produce.

Product Features:

- Excellent tolerance in a wide variety of crops gives more security.
- Outstanding curative efficacy gives more flexibility.
- Long-lasting disease control means fewer applications.
- Broad spectrum of activity also controls many secondary diseases.

Mode of Action:

SCORE acts on the fungal pathogen during penetration and haustoria formation. It stops the development of fungi by interfering with the biosynthesis of sterols in cell membranes. Although the mode of action permits protective and curative use, it is recommended to apply the product early enough to avoid irreversible crop damage and build-up of the disease.

Direction for Use:

Crops	Diseases	Dosage/arpent (200 Litres water)	Pre-Harvest Interval
Tomatoes	Early Blight	150 ml	7 days
Potatoes	Early Blight	150 ml	14 days
Brassicas	Alternaria, Mycosphaerella	125 ml	Cabbage & Cauliflower: 3 days Broccoli: 14 days
Carrots	Alternaria Cercospora	125ml	14 days
Beans	Rust	125 ml	14 days
Beetroots, Carrots	Leaf Spot	125 ml	14 days
Fruit Tree	Diseases	Dosage/ Litre Water	Pre-Harvest Interval
Litchi	Anthraxnose	500 ml	14 days

Use agricultural adjuvant, Complement Super @ 84 ml per arpent

Intervals between applications: 7 to 14 days depending on severity of diseases

Re-entry period: When spray deposits have dried

Rainfastness: 1 to 2 hours
